START SMALL. THINK BIG.

## YOUNG ILLINOIS SAVES

*How many of your students save regularly? How many have set financial goals? How many students APPLY what they learned about money in the real world?*

**Young Illinois Saves** is a statewide financial literacy movement led by a coalition of over 40 government, education, non-profit and business partners committed to increasing teen and young adult saving and financial literacy in the State of Illinois.

Through **Saves**, student leaders are trained to provide basic financial education regarding saving. Participants are asked to make a personal savings commitment, join the *Young Illinois Saves* movement and begin saving. Over 975 Illinois students have taken this challenge and made a commitment during the program's pilot.

**Young Illinois Saves** has now received support to provide a limited number of materials to several schools statewide.

Contact **Young Illinois Saves** today for information about how your school can participate at [ilsaves@econcouncil.org](mailto:ilsaves@econcouncil.org). Learn more at [www.YoungIllinoisSaves.org](http://www.YoungIllinoisSaves.org).
